

ORCID @ Chalmers

**Best practices in the creation of ORCID ID:s for
faculty, staff and students : technical integration**

ORCID Outreach Meeting
Chicago, May 22, 2014

Urban Andersson

Chalmers University of Technology

- 17 departments
- 10,000 students
- 2,000 researchers
- 2,500 scholarly publications (2013)
- Open Access mandate
- Chalmers Publications Library (CPL) – repository & publication database
- CRIS in development
- Special focus on bibliometrics

Managing author information in bibliometrics

The geography of Chalmers research

ORCID @ Chalmers

- National project: "Author Identifiers and Publication Databases" (2012)
- Pilot (September 2013)
- Create and connect service, integration in local systems, support to researchers and faculties (2013-)
- Integration of ORCID in the national research infrastructure
- Primary focus on supporting local and (inter)national research infrastructure, bibliometrics
- Co-ordinated by the library, but not a "library issue"

Pilot study (2013)

- Department of Space and Geo Sciences, approx. 150 researchers
- Initiative from the library and from the head of department
- Object of the pilot was to try out the API and workflows and to learn about responses from the from researchers
- Batch creation of ORCIDs, using the Member API
- Support from the legal office
- Mixed result, slow responses in some cases
- Conclusions
 - early adoption - too early?
 - focus on infrastructure
 - creation of ORCIDs should probably be initiated by the individual researcher in the first phase

Create & connect service

- orcid.chalmers.se
- Create and provide a sustainable infrastructure for handling ORCID's at Chalmers
- Provide an easy-to-use service for researchers to create ORCID's and connect these to the local systems, and a one-stop solution for all things concerning ORCID's at Chalmers, info & support
- Integrated in the local research infrastructure and administrative systems
- Developed in cooperation with the the central IT dept, using agile methods (SCRUM)
- Researchers targeted, but open for all - faculty, staff & students

Create & connect service

CHALMERS ORCID

Create and connect your ORCID to Chalmers

This is where you as a researcher at Chalmers create a new ORCID and connect it to Chalmers. If you already have an ORCID, just connect it to Chalmers.

Create a new ORCID

Connect existing ORCID

What is ORCID?

Open Researcher & Contributor ID (ORCID) is an international directory of unique IDs of researchers.

The image shows a screenshot of an ORCID authorization dialog box. The dialog is titled "ORCID CONNECTING Chalmers University Of Technology WITH YOUR ORCID RECORD". It contains the following text:

Thank you for claiming your ORCID record!

Chalmers University of Technology would like to read your ORCID record.

Yes, go to

ORCID
CONNECTING
Chalmers University Of Technology

WITH YOUR ORCID RECORD

Chalmers University of Technology
has asked for the following access to your ORCID Record

Read limited info from your ORCID Record

This application will not be able to see your ORCID password, or other private info in your ORCID Record. [Privacy Policy](#).

Chalmers University of Technology
By authorizing your ORCID, it will be connected to your local Chalmers ID (CID). This will enable future services, such as the transfer of publication data to and from CPL and your ORCID profile. It will not provide access to any confidential data. More information can be found on Chalmers Insidan.

Deny **Authorize**

The "Authorize" button is circled in orange.

ORCID

[\[Save page as shortcut\]](#)

Open Researcher & Contributor ID (ORCID) is an open, non-profit, community-driven effort to create and maintain a registry of unique researcher identifiers and a transparent method of linking research activities and outputs to these identifiers. It is unique in its ability to reach across disciplines, research sectors and national boundaries. It is a hub that connects researchers and research through the embedding of ORCID identifiers in key workflows, such as research report submissions, grant applications, and patent

Research Council (VR) has announced that ORCID will be implemented during 2014, and publishers such as Elsevier, Nature and Springer Nature have already started using ORCID identifiers.

Chalmers offers researchers and lecturers assistance with creating an ORCID profile to connect this with the local research environment.

Go to [ORCID](#) to create an ORCID, or to connect your existing ORCID profile to Chalmers. You will receive a verification e-mail from ORCID when you activate it.

By linking your ORCID with Chalmers, your CID (Chalmers ID) will be visible in the public file (with limited visibility), and that your ORCID will be visible in the data in Chalmers personnel database (PDB/CDKS). It will also be possible to read the information in the database as CPL will be able to read the information in the database with limited visibility, such as e-mail address and

The next steps

- New services
 - Export of publications and research activities to individual ORCID profiles
 - Services for administrators
- ORCID mandatory in the Swedish Research Council application portal (PRISMA), Q3 2014
- ORCID in national single sign-on system, as an attribute in SWAMID SAML2
- Locating Chalmers works in other repositories
